

# Electrical Engineering

Whether dealing with electronics, electricity, or electromagnetism, electrical engineering is a vital profession in our modern world of gadgets and circuitry. The science of manipulating electricity has given us amazing conveniences and technological accomplishments. From power generation to wiring to capacitors and diodes, the many facets of this crucial niche are important to maintain and build upon. It is crucial that companies find professionals with strong backgrounds and the right experience and skills to perform above the status quo.

**Ropella** understands the unique recruitment challenges faced by this diverse industry. Our understanding of your company, your customers and current industry trends means our executive search consultants can find just the right fit, quickly and efficiently. As talent acquisition experts, we excel at attracting, recruiting and building relationships with the best minds in the industry.

We have proven our ability to help companies grow and prosper by developing their most important competitive advantage – skilled people. Successful industry leaders count on Ropella to find the right talent to drive their business forward.

Look for our articles in *IEEE Spectrum* and other industry publications.

*We read and write for industry publications, including:*

- » IEEE Spectrum
- » Electronic Engineering Times
- » Power Engineering
- » Electricity Today Magazine

*We participate in industry associations such as:*

- » IEEE
- » ACEEE
- » NSPE
- » AEE

*We regularly attend industry trade shows, including:*

- » SAE Hybrid and Electric Vehicle Technologies Symposium
- » World Energy Engineering Congress
- » APEC
- » BCICTS

*We have served and developed relationships with leading companies in the industry, including:*

- » ABB Group
- » EMCOR Group
- » Eaton Corporation
- » General Electric Co.
- » Siemens
- » Continuum
- » PK Electrical, Inc.
- » Flex
- » Hatch Shrader
- » Bosch

*Ropella teams are built around the functions our clients are seeking. We have dedicated teams focused on C-suite, Sales, Marketing, R&D and Operations.*

*Roles filled recently include:*

- » Vice President of Product Development
- » Technology Director
- » Director of Software Engineering
- » Manager of Development Engineering
- » Staff Product Design Engineer
- » Maintenance Manager
- » Senior Systems Engineer
