

Systems Design Engineering

No matter the strategies, procedures, or techniques involved in engineering a project or product, it is the Systems Design Engineers who are the professionals who can analyze, create, and systematize the entire life cycle and value chain of a project and product "into a team effort" to "into a cohesive team effort" Technology has become more and more complex, and the approaches and fields for addressing these systems are important in an advanced society such as ours. By providing a systems or holistic view of the development effort, systems engineering unites the technical contributors into a team effort, forming a structured development process that proceeds from concept to production to operation. For their knowledge and abilities, competent Systems Design Engineers are in high demand.

The **Ropella Systems Design Engineering Team** understands the unique recruitment challenges faced by this wide-ranging industry. Our understanding of your company, your customers and current industry trends means we can find just the right fit, quickly and efficiently. Our Executive Search Consultants are likely members of the same trade associations and attend the same events as you and potential candidates for your company.

We have proven our ability to help companies grow and prosper by developing their most important competitive advantage - talented people. You can count on us to find the right talent to drive your business forward.

Look for our articles in *Printed Circuit Design Magazine* and other industry publications.

We read and write for industry publications, including:

- » *Electronic Component News Magazine*
- » *Machine Design Magazine*
- » *Engineered Systems Magazine*
- » *Printed Circuit Design Magazine*

We participate in industry associations such as:

- » Institute of Electrical and Electronics Engineers IEEE
- » Systems, Man, & Cybernetics Society
- » National Electrical Contractors Association
- » Association of Computer Electronics and Electrical Engineers

We regularly attend industry trade shows, including:

- » International Conference on Intelligent Systems Design and Applications (ISDA)
- » Embedded Systems Conference (ESC)
- » The Applied Power Electronics Conference and Exposition
- » Engineered Systems: High-Performance Buildings

We have served and developed relationships with leading companies in the industry, including:

- » United Technologies Corporation
- » Altair Engineering
- » Colmek Systems Engineering
- » DuPont
- » Decisive Analytics Corporation
- » ENSCO, Inc.
- » Environmental Systems Design, Inc
- » Foster Wheeler AG
- » Schweitzer Engineering Lab., Inc.

Typical position and functional searches conducted in the industry:

- » R&D Scientist, Manager, Director, VP
- » Sales Representative, Manager, Director, VP.
- » Product - Marketing Manager, Director, VP
- » Plant - Facility Manager, Director, VP
- » General Manager, Director, VP
- » Mergers, Acquisitions, Joint Ventures, and Commercial Development Manager, Director, VP
- » Purchasing, Supply Chain & Logistics
- » Human Resources and Administrations
- » Chief Operations Officer, Manager, Director, VP
