

Mechanical Engineering

Mechanical engineering is a remarkably diverse field with numerous applications in almost all aspects of society, from water nozzles to spacecraft, and in industries from automotive to biotechnology. The principles of engineering, physics and materials science form the backbone of mechanical systems, machinery and tools. As one of the broadest engineering disciplines, professionals in this field are tasked with designing, developing, building, and testing devices, machinery, tools, etc. To remain on the forefront of innovation, companies must seek out qualified mechanical engineers who can successfully take a product from just an idea to the marketplace.

The **Ropella Mechanical Engineering Team** understands the unique recruitment challenges faced by this wide-ranging industry. Our understanding of your company, your customers and current industry trends means we can find just the right fit, quickly and efficiently. The Executive Search Consultants on our Mechanical Engineering Team are likely members of the same trade associations and attend the same events as you and potential candidates for your company.

Look for our articles in *Mechanical Engineering* and other industry publications.

Over the past twenty years, we have proven our ability to help companies grow and prosper by developing their most important competitive advantage — talented people. You can count on us to find you the people that will drive your business forward.

We read and write for industry publications, including:

- » *Mechanical Engineering*
- » *Desktop Engineering*
- » *PE Magazine*
- » *Engineered Systems Magazine*

We participate in industry associations such as:

- » The Institution of Mechanical Engineers
- » American Society of Mechanical Engineers
- » National Society of Professional Engineers
- » American Society for Engineering Education

We regularly attend industry trade shows, including:

- » ASME International Mechanical Engineering Congress & Exposition
- » International Conference on Mechanical, Electronics and Computer Engineering
- » National Society of Professional Engineers Conference
- » ASEE (American Society for Engineering Education) Annual Conference and Exposition

We have served and developed relationships with leading companies in the industry, including:

- » Fluor
- » Teledyne
- » Honeywell
- » General Electric Aviation
- » Alcoa
- » Northrop Grumman
- » Raytheon
- » Siemens
- » Boeing
- » General Dynamics

Typical position and functional searches conducted in the industry:

- » R&D Scientist, Manager, Director, VP
- » Sales Representative, Manager, Director, VP
- » Product/Marketing Manager, Director, VP
- » Plant/Facility Manager, Director, VP
- » General Manager, Director, VP
- » Mergers, Acquisitions, Joint Ventures, and Commercial Development Manager, Director, VP
- » Purchasing, Supply Chain and Logistics
- » Human Resources and Administrations
- » Chief Operations Officer, Manager, Director, VP
- » Process Engineer, Materials Engineer, Chief Engineer
