

ENGINEERING

Engineering encompasses an incredible variety of scientific, technical and mechanical areas with potential to improve life and provide products and services that consumers welcome. Changes in technology and the growing global economy offer many opportunities and challenges for those in this field.

A successful engineer has the ability to apply their scientific, economic, social, and practical knowledge in order to invent, design, build, maintain, or otherwise improve anything from the buildings we live and work in to the materials and processes used in the products we use every day.

Ropella understands the unique recruitment challenges faced by this diverse industry. Our understanding of your company, your customers and current industry trends means our executive search consultants can find just the right fit, quickly and efficiently. As talent acquisition experts, we excel at attracting, recruiting and building relationships with the best minds in the industry.

We have proven our ability to help companies grow and prosper by developing their most important competitive advantage — skilled people. Successful industry leaders count on Ropella to find the right talent to drive their business forward.

Look for our articles in *Chemical & Engineering News* and other industry publications.

We read and write for industry publications, including:

- Chemical and Engineering News
- Engineering and Technology Magazine
- Progressive Engineer
- PE Magazine

We participate in industry associations such as:

- The National Society of Professional Engineers
- Institute for Electrical and Electronics Engineers
- American Association of Engineering Societies
- American Institute of Chemical Engineers

We regularly attend industry trade shows, including:

- NSPE Professional Engineers Conference
- ASCE Conference
- ASEE Annual Conference and Exposition
- GLOBALCON

We have served and developed relationships with leading companies in the industry, including:

- General Electric
- Intel
- Shell
- Siemens
- Cisco Systems
- Fluor
- Chevron
- Boeing
- DuPont
- Honeywell UOP

Ropella teams are built around the functions our clients are seeking. We have dedicated teams focused on C-suite, Sales, Marketing, R&D and Operations.

Roles filled include:

- Vice President of Manufacturing Engineering
- Director of Engineering
- Chief Engineer
- Operations Engineering Manager
- Senior Electrical Engineering Manager
- Mechanical Engineering Manager
- Process Engineering Manager
