

Mechanical Engineering

Mechanical engineering is a remarkably diverse field with numerous applications in almost all aspects of society, from water nozzles to spacecraft, and in industries from automotive to biotechnology. The principles of engineering, physics and materials science form the backbone of mechanical systems, machinery and tools. As one of the broadest engineering disciplines, professionals in this field are tasked with designing, developing, building, and testing devices, machinery, tools, etc. To remain on the forefront of innovation, companies must seek out mechanical engineers who can successfully take a product from an idea to the marketplace.

Ropella understands the unique recruitment challenges faced by this diverse industry. Our understanding of your company, your customers and current industry trends means our executive search consultants can find just the right fit, quickly and efficiently. As talent acquisition experts, we excel at attracting, recruiting and building relationships with the best minds in the industry.

We have proven our ability to help companies grow and prosper by developing their most important competitive advantage – skilled people. Successful industry leaders count on *Ropella* to find the right talent to drive their business forward.

Look for our articles in *Mechanical Engineering* and other industry publications.

Look for our articles in industry publications, including:

- » Mechanical Engineering
- » Digital Engineering
- » PE Magazine
- » Engineered Systems Magazine

We participate in industry associations such as:

- » The Institution of Mechanical Engineers
- » American Society of Mechanical Engineers
- » National Society of Professional Engineers
- » American Society for Engineering Education

We regularly attend industry trade shows, including:

- » ASME's IMECE
- » ICMAE
- » NSPE Professional Engineers Conference
- » ASEE Annual Conference and Exposition

We have served and developed relationships with leading companies in the industry, including:

- » Fluor
- » Teledyne
- » Honeywell
- » General Electric Aviation
- » Alcoa
- » Northrop Grumman
- » Raytheon
- » Siemens
- » Boeing
- » General Dynamics

Ropella teams are built around the functions our clients are seeking. We have dedicated teams focused on C-suite, Sales, Marketing, R&D and Operations.

Roles filled recently include:

- » Chief of Operations
- » Vice President of Engineering
- » Director of Mechanical Engineering
- » Stress Engineering Manager
- » Mechanical Engineering Project Manager
- » Senior Manager, Mechanical Engineering
- » R&D Engineering Manager, Mechanical
